

WHAT'S SO SMART ABOUT SMART SPICE

Smart Spice tastes better.

Organic spices are all about flavor – no fillers, additives, anti-caking agents, twigs (yes, twigs!), or other foreign matter.

Smart Spice stays fresh.

Sealed in air tight, 1-teaspoon packets, Smart Spice is protected from light, air and moisture, the enemies of spice flavor. The last packet is as fresh as the first.

Smart Spice is certified organic.

These top-quality spices are healthier for your family, free from toxins and pesticides.

Smart Spice is sized right.

If you cook for one or two – or only once in a while – you don't need to buy a five-year supply of spice when all you need is a few teaspoons.

Smart Spice doesn't waste spice.

You don't need to clutter up your cabinet with clunky bottles of stale spices – or throw them out half full.

Smart Spice is easy to use, easy to store.

Our 1-teaspoon packets are pre-measured – just tear open and pour. Our slender, stylish cartons are clearly labeled and fit neatly into a cabinet or drawer.

Smart Spice even excels at school.

Show your kids what a sprinkling of paprika or cinnamon can do to a boring school lunch. You'll be the coolest mom or dad ever.

Fresh, organic, easy, healthy, convenient, tasty, and good looking... that's Smart.
